Free COVID-19 Continuity of Operations Workshops for Nonprofit and Community Organizations

The American Red Cross Los Angeles Region is offering free online COVID-19 Continuity of Operations Workshops to nonprofit and community organizations in the Los Angeles area. The goal of these workshops is to provide concise and actionable information to help nonprofit and community organizations continue to provide their services safely and in compliance with public health directives during the COVID-19 pandemic.

Workshop Details

- To ensure proper social distancing, each workshop is conducted remotely using Microsoft Teams.
- The workshop includes visual presentations, so participants will need a computer with internet access and standard sound/microphone capability.
- We understand that nonprofit organizations are especially pressed for time during the current pandemic crisis, so each workshop is scheduled for no more than 60 minutes.
- Generally, workshops are offered to individual organizations to ensure we can answer their specific questions. Multiple individuals from each organization may participate.
- Following each workshop, the participating organization will have the opportunity to submit its plan to a Red Cross operations professional for review and feedback.

Schedule a Workshop for Your Organization
